Subject: Underground Storage Tank Closure for Myers, C.W. - Old Service Station,
 3111 Carver School Road, Winston-Salem, Forsyth County, North Carolina

Dear Mr. Spaugh:

On May 25, 1994, we received additional soil sample results and closure assessment from the underground storage tank closure at the subject location. After careful review of your report, it appears that the site was not closed in accordance with 40 CFR 280. While reviewing the site specific conditions at the subject location, along with the additional information that Mr. Spaugh provided, it was decided that no further action is warranted. However, this does not absolve you of any responsibility for contamination that may not have been detected or noted during the site assessment.

If you have any questions, please feel free to contact Mitch Rose at the letterhead address or telephone number.

Sincerely,

A handwritten signature in black ink, which appears to read 'W. Waddell Watters', is positioned above the printed name.
